

Your science folder should contain:

Draft copies: Introduction, Aim, Equipment, Hypothesis, Method, Variables, Results, Conclusion

Background research of your topic - key points highlighted.

Published copies: Introduction, Aim, Equipment, Hypothesis, Method, Variables, Results, Conclusion
EACH SHOULD BE ON THEIR OWN PAGE!

Photos of you testing or recording.
Graphs or tables showing your results.

Permission slips, copy of ethics approval (if required)

Conclusion: This links in with your hypothesis - was it right?

DUE: 30th June
